

MULTIPLIER EVENT BULGARIA

On the 17th of February, CuBuFoundation hosted its TIP MULTIPLIER event in Plovdiv. The organisation was joined and supported by project partners from Mess up the Mess and UCAN. The programme included:

- Presentation of the participants in the project "Theatre as an Inclusive Practice"
- Presentation of project objectives, activities and achieved results
- Demonstration of different theatre forms (verbatim, theatre of the oppressed, sensory labyrinth theatre, devised theatre) with several games.
- Screening of "You can't sit with us!" - A theatrical production created by the international group of young people who worked together at the end of August 2022. in Cardiff, Wales.
- Discussion and cocktail

The 32 participants (theatre experts and actors, representatives of local governmental and educational institutions, NGO representatives, etc.) were informed in detail about the project, the objectives and the impact.

The demonstration was led by the theatre experts from each organisation, with the support of partner representatives, so that the participants can get a "taste" of the different theatre methods through short exemplary exercises. This was followed by the first public screening of the play "You can't sit with us".

They all showed interest in including the proposed practices in their future work.
